***Responding to Women Who Experience IPV in Rural
Municipalities Across the Prairies***

We are looking for volunteers to take part in a study of rural women's experience as victims of violence in their intimate partner relationships, and their experiences of help-seeking.

As a participant in this study, you would be asked to: participate in a one-time interview. Telephone interviews will take place if COVID-19 concerns continue, and also for women residing more than 200 kilometers from Saskatoon.

Your participation would involve one interview, which is approximately 60 to 90 minutes.

For your participation in an interview, you will receive an honorarium. Your participation and any information that could identify you personally will be kept confidential. Only women who now reside in a safe situation free from IPV will be considered.

For more information about this study, or to volunteer for this study,
